

MP-CAL-8500 TABLE TOP PRESSURE COMPARATOR

MP-CAL-8500-table

Table Top Pressure Comparator

The MP-CAL-8500-table High Pressure Comparator is a hand operated hydraulic pressure test pump that is designed to generate pressures from 85% vacuum to 600 bar (9000psi).

Two hand-tight quick connectors installed on the pump allow easy connecting and disconnecting to the test pump without the need for PTFE tape or wrenches.

The MP-CAL-8500-table is an ideal comparison test pump for calibrating pressure measuring instruments such as test gauges, indicators or transducers in the laboratory.
